SUBJECT.

Capital and working expenditure on the Govt. Implements Factory, Hassiem

Hassiem Sapper
16/7

Re distribution of capital grants to the Bagepalli Supplements Factory Haraan

731

General and Revenue Secretariat. File No. 81 of 1939 [App. F. III-2

Serial No.

From the Chairman, M.D. S.I.
No. 50 dated 4.8.1939

Requests sanction for a fresh distribution of the allotment of Rs. 1,50,000/- for capital expenditure on the Supplements factory at Haraan, as also certain powers to sanction expenditure on purchase of plant & machinery and construction.

S

In the G.O. of 25-5-39 sanctioning the scheme for establishment of the Supplements factory, from was made for an expenditure of Rs. 1.5 lakhs on capital equipments for the factory and the Chairman, M.D. SW has now suggested a fresh distribution of the allotment. Items 21 to 23 and 24 aggregating to Rs. 13,500/- seem to be a proper charge on the working Rev. Funds of the factory and may perhaps be met out of the working advance of Rs. 50,000/-.

2) The request of the Chairman to empower him to sanction purchase of plant and machinery not exceeding upto Rs. 1000/- in each item case and on construction and civil works upto Rs 1000/- in each case may perhaps be allowed.

3) Fin. Secy. also may be consulted. The expenditure has to be provided for by an addl. grant

F (Secy) Mc

I invite respectful reference to my remarks dated 20th March 1939 about the reliability of the Revenue and Capital undertakings -- particularly in respect of this very concern and also the then Development Secretary's remarks in the margin. But I never thought that my original anticipations and fears were likely to ~~prove~~ materialised so soon, i.e., immediately even before this factory has started.

The original estimate included a provision of Rs 20,000 for the construction of workmen's quarters which, in the present scheme of development, is left out of account. The Chairman also refers to the possibility of having to find additional funds for expansion of the factory and office. I do not know whether such a large increase of capital expenditure, in respect of Industrial undertakings, in respect of the out-turn of which and realisation of ready money by sales of such out-turn there is so much doubt, would not land us in working losses in future. I have therefore to urge the need for great caution in committing ourselves to schemes of this kind. I am afraid

Serial No.

that ~~sufficient~~ realisation of profits even to cover the interest upon the capital ~~already~~ invested and the additional lock up on account of both the turn over and the capital construction of the Factory, may not be actually seen by us very closely. The need for capital expenditure, has to be examined particularly with reference to the out-~~turn~~ turn and the demand for the articles ~~in respect of machinery~~ in Mysore, and such ineffective capital as may be spent on buildings and other things of an optional and deferrable nature -- without which the operations can go on -- have all to be carefully and studiously eschewed. In this view, it is necessary to see that all optional items, though desirable, are not permitted to be executed till such time as we are definitely certain that ~~the~~ profits have been realised and the concern is in a position to bear the burden without throwing ~~an~~ additional taxation on the general taxpayer. The expenditure has to be kept at the minimum absolutely necessary.

// I again wish to bring to the notice of Government that in all these estimates, the problem of working capital which has necessarily to ~~be provided for~~ take into account, the time factor involved in the sale of the products and in the actual realisation under market operations of the sale proceeds and the working process with reference to the manufacturing capacity of the plant etc., ~~are~~ is not adequately assessed, and it becomes

Bhadravati,
August 4th, 1939.

	b/f.	1,36,500
21. Office salaries,etc.		
22. Furniture, typewriter,etc.		6,000
23. Stationery & Miscellaneous Office expenses.		
24. Contingencies.		7,500
	Rs.	1,50,000/-

Arrangements have been made separately for the acquisition of the land required. For the Factory Buildings detailed plans have been prepared and are being sent to the Government Architect for scrutiny and advice. Unless substantial changes are made by him, it is anticipated that the Factory Buildings can be constructed within Rs.35,000/-. The main building will be taken up first and the construction of the office and stores will be put off, if the allotment is found insufficient. A portion of the factory building can in the meanwhile be used as office. I enclose a copy of the blue print which has been sent to the Architect.

The machinery required will be obtained through the Stores Purchase Committee. In order to select the types of machines which would suit the requirements of the Factory, as also to keep the cost within the sum allotted, preliminary quotations have been received from a number of firms. These will also be sent to the Stores Purchase Committee.

The purchase of the lorry and a portion of the expenditure on the Library and Laboratory will be postponed until we are sure that the total expenditure will not exceed the estimates now made.

contd.

Mr.M.Venkatanaranappa,B.A.

No. 50.

~~PUBLIC OFFICERS~~,
~~BANGALORE~~

Bhadravati,
August 4th, 1939.

It is proposed to place orders for one set of mechanical and spring hammers without waiting for further quotations in order to enable the work being started immediately the building is completed. I am separately applying for Government's sanction for this.

There is a large variety of equipment which is proposed to be purchased immediately in India out of the provision made in the statement given above. I may be authorised to sanction purchases of items of Plant and Machinery, the individual value of each of which does not exceed Rs.1000/-. Similarly, I may be authorised to sanction items of expenditure on construction and other works not exceeding Rs.1000/- in each case.

The detailed estimates for the factory building will be submitted soon after the plans receive the approval of Government after scrutiny by the Architect.

Yours faithfully,

Ag.Chairman.

~~such a sort from there is no possible doubt would be made~~ which however is not assured is not therefore ~~in case, proper, to be further considered~~

The need for a large capital expenditure as proposed requires further examination particularly with reference to the output and the demand for the articles & hence ~~and~~ how much ineffective capital as may be spent on buildings and their fittings of an ~~optional~~ and defensible nature, has to be carefully and studiously kept out, the cash thus & and factory realised properly used & in a position to bear the burden.

Further, the working capital for the Concern has necessarily to take into account the time factor involved in the sale of the products & in the actual realisation of under normal ~~conditions~~ operations. & the sale proceeds and the working process with reference to the manufacturing capacity of the Plant etc. This aspect of the problem is not been adequately assessed.

I am to request that the estimates may be revised in the light of the above remarks and resubmitted for consideration & post.

Thanking you

Yours faithfully

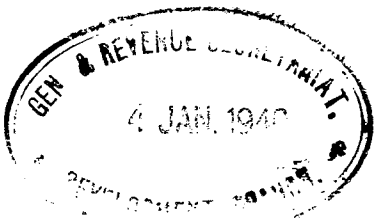
Bhadravati,
3rd January, 1940.

2540



The Secretary to the Government
of His Highness the Maharaja of Mysore,
Development Department, Bangalore.

Dear Sir,

I invite reference to para 3 of the Government Order No. D.1726-27/Encl. 1 I.&.C.81-39-5 dated the 25th/28th September 1939.

Due to the war, it may not be possible to get during the course of the current year all the machinery originally contemplated and the amount required for capital expenditure during the year 1939-40 may be estimated at Rs. 1.25 lakhs. It is expected that the operations will start early in March but for want of the full complement of machinery, ~~but~~ the output will be comparatively small during the first few months. TA working capital of Rs. 25,000 would be sufficient during the current year.

I request that the Comptroller may be requested to disburse funds as and when necessary to the above extent during the current year.

Yours faithfully,

Ag. Chairman.

No. 688

Bhadravati,
8th May 1940.

Dear Mr. Noronha,

Capital and working expenditure on the Government Implements Factory, Hassan.

+++

With reference to your D.O.letter No.D 5049/I & C 81-39-R dated 7th May 1940, I write to state that no additional grant is required for the Mysore Implements Factory at Hassan, during the current year and that a sum of Rs.1.5 lakhs sanctioned in Government Order No.D 3553-54/I & C 81-39-8 dated 23/24th January 1940 will be sufficient.

Yours sincerely,

M. Venkatanaranappa

C.E. Noronha, Esq, M.A.,
Secretary to Government,
Development Department,
Public Offices,
Bangalore.
